

**Preliminary Program of the Online
XXXIII International Congress with Endoscopic Course
“New Technologies for Diagnosis and Treatment of
Gynecological Diseases”**

Moscow, 2-4 June 2020

June 2, 2020. Day 1.

02.06	9:00-9:15	Opening Mikhail Murashko, Minister of health Adamyana Leila and Gennadiy Sukhikh, Congress Chairs		
	9:15-10:55	Plenary session 1.		
		New challenges of reproductive medicine		
		Adamyana L.V.	New technologies in gynecology. COVID-19 and women's health.	Russia
		Konyshcheva O.V., Kaznacheeva T.V.	COVID-19 and pregnancy, delivery and post delivery period. Clinical experience and results (more than 400 cases)	Russia
		Olenev A.S., Songolova E.N., Vinokurova I.N.	Pregnancy and COVID-19 - the megapolis experience	Russia
		Tikhonova E.S.	COVID-19 in women from menarche to menopause. Clinical view.	Russia
	Botchorishvili Revaz	Laparoscopic surgery and COVID-19 - the risks and the precautions	France	
	Wattiez Arnaud	Minimal invasive surgery under pressure!!! Facts and solutions	France	
	11:00-11:30	Discussion		
02.06	11:30-16:25	Plenary session 2.		
		Endometriosis - diagnostics, treatment, rehabilitation		
		Wattiez Arnaud	DIE replacing the patient at the center of the picture	France
		Ota Ikuko	Magnetic resonance imaging and TVUS fusion technology for examining endometriosis and adenomyosis	Japan
		Ota Yoshiaki	Laparoscopic cold knife adenomyomectomy with real-time ultrasound elastography guidance	Japan
		Koninckx Philippe	Pro's and con's for bowel resections versus a conservative excision for deep bowel endometriosis	Belgium
		Ussia Anastasia	Technique of small bowel resection for deep endometriosis	Italy
		Tinneberg Hans	Severe endometriosis - what are the alternatives to surgery?	Germany
		Nisolle Michelle	Could we avoid ovarian tissue damage by using CO ₂ laser in ovarian endometriomas?	Belgium
		Cela Vito	Endometriosis and indocyanine green in robotic surgery	Italy
		Ebert Andreas	Dysmenorrhea in patients with and without endometriosis - a global scientific and therapeutic problem.	Germany
		Radzinskiy V.E.	Controversies in chronic pelvic pain	Russia
		Bezhenar V.F., Kruglov S.U.	Clinical and morphological efficacy parallels in nerve-sparing surgery for deep endometriosis	Russia
		Gasparyan S.A., Vasilenko I.A.	The role of endothelial dysfunction and haemostasis disorders in the endometriosis pathogenesis: the new traits in the portrait	Russia
		Kozachenko A.V.	Genital endometriosis: a complex approach	Russia
		Melnikov M.V.	Colorectal endometriosis: results of laparoscopic surgeries	Russia
	Treff Nathan	Polygenic risk scoring in reproductive genetics	USA	
	Lee Ted	Laparoscopic approach to resection of rectus muscle endometriosis and endometriosis of inguinal channel.	USA	

	16:25-16:45	Discussion		
02.06	16:45-18:15	Plenary session 3.		
		Complex approach in the use of new technologies with pathologies		
		Artymuk N.V.	Physical methods of treatment of pelvic floor disfunction in young women	Russia
		Prilepskaya V.N.	The new in prevention, diagnosis and treatment of HPV associated cervical conditions	Russia
		Apolikhina I.A.	Minimally invasive surgical technologies in correction of functional disorders of pelvic floor	Russia
		Kasyan V.N.	Sexual dysfunction and pelvic floor disorders in women: role of new technologies in correction	Russia
		Maksimova U.V.	New surgical technologies in reconstructive and esthetic gynecology	Russia
		Bairamova G.R., Asaturova A.V., Ezhova L.S.	Alternative approaches in diagnosis and treatment of patients with CIN	Russia
	18:15-18:30	Discussion		

June 3, 2020. Day 2.

03.06	8:00-9:00	Romeo Armando, Wattiez Arnaud, Koninckx Philippe, Kozachenko I.F.	MasterClass in endoscopic surgery	
	9:00-10:25	Plenary session 4.		
		Fetal medicine		
		Deprest Jan	Spina bifida aperta: personalized counselling and fetal repair	Belgium
		Kurtzer M.A., Pritko A.G., Zvereva A.V., Asadov R.N.	Intrauterine correction of spina bifida: outcomes in children	Russia
		Kosovtsova N.V., Malgina G.B., Bashmakova N.V.	The first experience of laparoscopic correction of spina bifida in fetus in Russia	Russia
		Trofimov D.U., Barkov I.U.	New possibilities of non-invasive prenatal DNA-screening: the experience of the National Medical Research Center for Obstetrics, Gynecology and Perinatology	
		Di Renzo Gian Carlo	Free fetal DNA in maternal blood: potential use and limits	Italy
	10:25-10:40	Discussion		
03.06	10:40-13:05	Plenary session 5.		
		Infertility - new technologies in diagnosis and treatment		
	10:40	Puntambekar Shailesh	Uterine transplant - a big leap in management of uterine factor infertility	India
	11:00	Kawamura Kazuhiro	Identification of the rejuvenation factor of embryos to improve the pregnancy in ageing women	Japan
	11:20	Brannstrom Mats	Uterus transplantation: towards a fully robotic-assisted laparoscopy procedure	Sweden
	11:40	Kupker Wolfgang	Discover infertility today: diagnosis, ways of treatment and rehabilitation.	Germany
	12:00	Hamou Jaques	Contribution of Hysteroscopy in infertility	France
	12:20	Andreeva E.N.	Polycystic ovarian syndrome. Place of surgery	Russia
	12:35	Dementieva V.O., Adamyany L.V., Smolnikova V.U.	The role of surgical technologies in activation of ovarian reserve in different forms of premature ovarian failure	Russia
	13:05	Yarmolinskaya M.I.	The new strategy to prevent endometriosis associated infertility	Russia

	13:05-13:20	Discussion	
	13:20-15:55	Plenary session 6.	
03.06		Cancer of female genitalia: epigenetics, anatomy, surgery, robotics	
		Puntambekar Shailesh	The pelvic anatomy GPS for doing difficult pelvic surgeries India
		Tozzi Roberto	Abdominal, thoracic and bowel surgery in patients with stage III-IV ovarian cancer UK
		Malzoni Mario	Lymph node assessment in cervical cancer: indications and surgical technique Italy
		Köhler Christhardt	Surgical versus clinical staging prior to primary chemoradiation in patients with cervical Cancer FIGO stages IIB to IVA: Results of a prospective randomised international multicentric trial Germany
		Ashrafyan L.A.	A new concept for the pathogenesis and treatment of serous ovarian cancer Russia
		Berlev I.V.	Detection of sentinel lymphatic nodes in cervical cancer surgery Russia
		Kiselev V.I.	A new paradigm for the progression of cervical intraepithelial neoplasia Russia
		Nosov V.B.	The niche of robotosurgery in operative gynecology and oncogynecology Russia
		Khabas G.N., Ovodenko D.L.	The results of laparoscopic radical hysterectomy in the early stage uterine cancer Russia
	15:55-17:30	Malzoni Mario, Ussia Anastasia, Wattiez Arnaud	Live video of endoscopic surgery

June 4, 2020. Day 3.

04.06	8:00-9:00	Wattiez Arnaud, Adamyan Leila, Romeo Armando, Stepanian Assia, Koninckx Philippe, Kozachenko I.F.	MasterClass in endoscopic surgery
	9:00-9:30	Bettocchi Stefano	Live surgery
	9:30-13:10	Plenary session 7.	
		New technologies in diagnosis and treatment of benign uterine diseases	
		Bettocchi Stefano	Discover the uterine septum Italy
		Ota Kuniaki	Temporal alteration in Uterine Endometrial Blood Flow Impedance after laparoscopic myomectomy in infertile women with Uterine leiomyoma Japan
		Bigatti Giuseppe	New possibilities for IBS Shaver in intrauterine surgery Italy
		Mettler Liselotte	Clinical and functional anatomy in hysterectomy Germany
		Darenkov S.P., Adamyan L.V.	Simultaneous operations for developmental malformations of urinary tract and genitalia. Artificial bladder. Russia
		Kira E.F., Politova A.K., Slobozhankina E.A., Amelina U.V.	The new in the benign diseases treatment of female genitalia. The role of high-intensity focused ultrasound (HIFU) Russia
		Kuznetsova M.V., Sogoyan N.S.	Myoma genetics: from somatic mutations to inherited markers Russia
	Makiyan Z.N., Arakelyan A.S.	New technologies in the diagnostics and treatment of genitalia malformations Russia	
	Martynov S.A.	Laparoscopy and hysteroscopy in the complex treatment of intrauterine synechia and incho in uterine scar after Caesarean section Russia	
	Popov A.A.	Robot assisted surgery in benign diseases in gynecology Russia	

		Uvarova E.V., Chuprinin V.D.	The new technologies in treatment of gynecologic pathology in girls and adolescents	Russia
		Khashukoeva A.Z., Sukhova T.H.	The proliferative pathology of endometrium:the new effective method of treatment	Russia
		Chernuha G.E., Ivanov I.A., Asaturova A.V.	Levonorgestrel-releasing IUD in the prevention of endometrial polyps	Russia
	13:10-13:30	Discussion		
	13:30-15:30	Plenary session 8.		
		New technologies in prolapse and urinary incontinence treatment		
		Pushkar D.U., Kasyan G.R., Gvosdev M.U.	The unsolved issues in urogynecology	Russia
		Botchorishvili Revaz	Laparoscopic treatment of urogenital prolapse in the era of mesh restrictions	France
		Simoncini Tommaso	The evaluation of surgical treatment of multicompartamental pelvic organ prolapse. Why use a robot to treat pelvic organ prolapse	Italy
		Ischenko A.I.	The first experience in use of cell technologies in surgical treatment of genital prolapse	Russia
		Nenakhov F.V.	Laparoscopic treatment of pelvic floor surgery complications	Russia
		Chernyshenko T.A.	The correction of genital prolapse: modern reality, the role of robotic surgery	Russia
		Shelygin U.A., Mudrov A.A.	The treatment of rectovaginal fistulas: gynecologist or coloproctologist?	Russia
	15:30-15:45	Discussion		
	15:45-18:25	Plenary session 9.		
		New technologies for diagnosis and treatment in pregnancy		
		Arabin Birgit	Environmental enrichment and pregnancy. Paradigms of (epi)genetic consequences of social or sensory stimulation to increase stress resilience.	Germany
		Setúbal António	Complications of DIE during pregnancy and IVF	Portugal
		Bichenko V.G., Akinfiyev D.M., Kozachenko A.V.	The role of endovascular surgery in complex treatment for cervical pregnancy and vascular uterine malformation	Russia
		Dobrochotova U.E.	Complex approach for pregravidar preparation using the new technologies	Russia
		Zuev V.M., Kukushkin V.I., Ischenko A.I.	Optical "biopsy" in the diagnostics of structural and functional pathology of endometrium and its rehabilitation optimization during preparation to pregnancy	Russia
		Kiselev S.I.	The rare forms of extrauterine pregnancy: the role of hysteroscopy and laparoscopy	Russia
		Strizhakov A.N., Davidov A.I.	The new approach in surgical treatment for extratubal form of ectopic pregnancy	Russia
		Fatkullin I.F.	Sepsis in obstetrics - the new approach in complex diagnostics and treatment	Russia
		Chuprynin V.D., Shmakov R.G.	Surgical aspects in diagnostics and treatment of complications in obstetrics	Russia
		Shtyrov S.V.	Laparoscopy in urgent gynecology	Russia
	18:25-18:40	Discussion. Congress Closing Session.		

XXXIII International Congress will be held online at the Zoom video conference platform in two languages (English and Russian) with simultaneous translation
